

>VALUE PROPOSAL

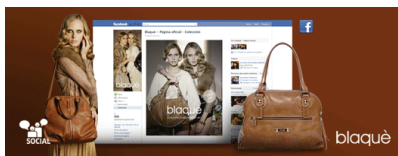

Tapita® is a global technology company which develops interactive services in order to create relations with brands and agencies.

>SERVICES

SOCIAL

We develop social marketing strategies so brands can actively participate in social conversation, creating communication areas and giving brands the different digital tools they need to achieve each goal they have.

MOBILE

We are experts in producing Mobile solutions by developing creative and innovative apps, this way brands can be within reach for consumers no matter where or when they need them.

GAMING

In Tapita we develop social games, advergames and mobile games; because we fiercely believe that the best experience with a certain brand, is the one lived with a smile.

>METHODOGY

Our virtuous circle that gives us an added value consists in four stages which ideally conform a continuous cycle.
